

Lesson 1

Coming Into the Light to Grow Your Talents

Greetings from the Light:

I begin with extending my gratitude and appreciation to our dear friend Irene. Thank you for supporting Patricia and those of us within the Light in an effort to begin this group.

Now allow me to introduce myself, and the others that know Patricia. I am affectionately called Susan. I am, however, neither man nor woman. I am of spirit and the realms of Light. I am not an angel, although I work with angels. I have never been a human being, nor have I been part of your reincarnation cycles. I have visited your beautiful planet on many, many occasions as an advisor during its cycles of development such as Atlantis, Lemuria and other ancient civilizations. The other Light beings of spirit who may join us are also teachers and guides and are much like colleagues. We share in this common spiritual venture and are like threads in the same tapestry of the Universe of Light. We all are much like professors/instructors at the same University, each with our own specialties.

I, myself have often appeared as a spirit god to Earth's indigenous civilizations in very early periods of Earth's history. I often whispered ideas, spread Light and fostered inspiration in the beginnings of the development of democracy in the United States. I came in dream states, and as answers to prayers with many founding fathers of the country. I certainly was not alone, there were many realms of Light beings and angels present during the birth of your nation. As human consciousness evolved your nation was to serve as a model of equality, freedom and the growth of the highest nature toward increased human potential and as stewards of the environment. Although today your country or leaders may not reflect some of these same ideals; all is not lost today as there is time, with your help, to return to the original vision.

Patricia once experienced me during a Mayan lifetime when I represented a god of harvest and abundance after the people prayed for rain for their crops. I have served as a Kachina manifestation to the Native Americans and a representative of other gods within eastern Hindu religions. I have had the honor and privilege of observing, and often participating in many religious ceremonies during the birth of civilizations throughout your history.

I have served many purposes when people sincerely called for help. There are many other experiences that I will share in other readings to come. The important message is that you understand that I have been manifested in many different modalities to meet the needs and prayers of people at the time. Now it is time for you to see me, not as a god, but a teacher, or guide if you will. My purpose is to help illuminate your path to assist you in accessing your own inner Godliness and gifts. Human beings (whether they knew it or not) have always been a part of manifesting their reality, both individually and collectively. When you can manifest your reality, you serve the highest needs of the planet and its inhabitants. Within this group you will come to understand your gifts and talents (although many of you already use them), magnify those gifts while learning to create what you need to assist in the global changes. As you are part of a world-wide effort to assist in global change, you too will notice changes in abundance, health, peace of mind, joyfulness and mindfulness in your own life. My dear friends, Light truly does beget Light.

It is a critical time now for all those on this wonderful planet Earth to draw their hearts and minds to the Light. You can accomplish this task by filling your hearts daily with love and Light. To do this you simply and sincerely ask Mother/Father God to show you your purpose for the day as you visualize breathing in Light. This group (and many others throughout the planet) is meeting to join forces in a united effort to raise planetary vibrations and begin to master and appreciate their individual talents and gifts in the ascension of the planet.

The ascension of Earth refers to this time of global change, or as it has often been spoken of as "The Shift." The changes are a kind of evolution of the planet and all its inhabitants into higher vibrational levels and more Light. Although these changes will not be cataclysmic as once predicted, they will nonetheless cause change throughout the world. Clearly you are witnessing these changes now. Any amount of change can cause discomfort when moving from the status-quo. This is evident when viewed on an individual basis as well as on a world-wide basis. Your compassion and gifts can aid those who are in more difficult areas of the change. For example, you may be blessed not to be part of the violence and despair of the war-torn nations of Africa or other countries, but you can send Light and be part of manifesting change for those areas.

Each of you precious beings have unique gifts that you brought to Earth this life time, and are part of your genetic code. Some of you have been practicing these gifts during this time of change; others of you are now waking to your talents. Should you choose to join this group on a journey within yourselves, you will better understand how to use your gifts. This group is, and will always be, about growing your own gifts and learning to manifest your own reality. The group is not about the worship of "Susan," or other Light beings that join us. Please hear these words precious people of Earth, we are here to serve you on your sojourn inward, for only inside will you find the Universe, or the "chunk of God" that lives within you. We in the Light honor and love that divine spark within each of you, and offer our teachings to help provide you more detailed road maps for your journey.

It is my privilege, along with others within the Light to join with you now and hold the Light for you while you raise your vibrations to the next level. A quantum leap – so to speak! You all will play critical roles in the transformation of the planet. It may seem exciting to some, and terrifying to others. Please know you are not alone, and should you choose to join this magnificent journey – your lives will forever be changed and filled with spiritual abundance. We in the Light extend to you all our love and assistance if you choose to join us in holding the Light on your precious planet.

This important information will be provided to you through written lessons and by oral lectures given by me and channeled through Patricia. It would be our prayer that each of you in turn would share this information with friends and kindred spirits. In addition to the written lesson I will further relate information from the Light in lectures.

May the Universal Light of God's Good Grace Bless All of You With Abundant Love.

Susan and Many Others in the Light
